

Tealeye Cornejo
Air Safety Investigator (Field)
AS-WPR

Date: February 1, 2024

Subject: WPR23LA367, Memorandum of Record

Contact: Brent Hardgrave, FAA RNO

The accident occurred on May 27, 2023. The FAA became aware of the damaged airplane while conducting surveillance at the Minden-Tahoe Airport (MEV), Minden, Nevada. They saw the airplane parked on the ramp with a damaged left wing. This was a late notification to the NTSB.

Inspector Hardgrave stated that the pilot reported no mechanical issues with the airplane.
