10/27: Did good, oral good

GEN GROUND — risk mgmt was good IMSAFE

Stalls ✓

Flight - Had to take control on soft field

Landing

3 weeks later (11/20) retested

in Cotterwood

Gabe went with him on preflight

(Quick-connect fasteners everywhere)

Tail is held on by pins, checked that

~~Flew 1.1 hrs back before~~

- DA - talked about that
- NO TALK ABOUT FROST
- STRAPS ARE GENERALLY USED AS TIE-DWN and stored in mesh pouch

500-700 T/O DIST
