Subject: WPR24FA073

Contact: Sean Kelley

During a telephone conversation, Mr. Kelley stated that the pilot had lived in the area for a year and was from Vermont. He did not know if there was any insurance on the airplane or not. When asked about logbooks, Mr. Kelley thought the pilot was using ForeFlight for logs and may have had a paper logbook. Mr. Kelley recalled that the pilot had just got the propeller back from overhaul and had flown back and forth across the country over the holidays. He did not recall hearing any updates on maintenance since the propeller. Mr. Kelley stated that he recalled the condition inspection was coming due in the next few months. Mr. Kelley recalled that he usually got gas at Hayward, unsure if he used self-serve or an FBO.
