Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

Wings Tail, outer structure motor mount, Landing gear engine, prop.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

A/c departed private A/c around 2pm PST, Pilot was on his 15-16th load of the day, After being gone for extended time crew started calling on radio, with no response they initiated a person to look for him.

After a few minutes a waste called and said that the plane had went down in the field. Upon reaching the accident site the pilot was found inside and was pronounced D.O.A.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

The pilot stated to his loader that he wasn't feeling good and that this job would be his last for the day. My thoughts are that he might have been pay more attention to his sick feelings and not watch his instruments. Pilot exhausted the fuel and had nowhere to land but in flooded rice field.
