Kristyn-

Here is the response I received from [REDACTED]

"My husband [REDACTED] weight was 180. [REDACTED] 157 to 160. [REDACTED] 150 to 152.
There was no luggage or items on board other than both [REDACTED] and [REDACTED] flight bags that had the headsets they were wearing, personal documents and each of their iPads. [REDACTED] is also contained his logbook. Maybe a clipboard and maps.
I have not located my husband's log book - or know if it was paper or if he switched to an electronic tracker. I will continue the search. "
