Mr. [REDACTED] and Ms. [REDACTED] stated they were driving westbound on highway 26. They observed an airplane pass in front of their vehicle flying from north to south at a low altitude. They then observed a second airplane flying from south to north towards the first airplane, only a little higher than the southbound airplane. They said the southbound airplane appeared to make a left turn in front of the northbound airplane. The northbound airplane then appeared to make a hard right turn before they collided.
