Stephen,

All members have reviewed their transcripts for accuracy. There was one issued noted by Carl Logan which I have included below.

Only one word looks out of place, page 6 line 21. The phrase "tunneling up" it would make more sense if it was "throttling up" given the context of the question and response. Other than that, one word the context of what I saw and remember is there.

Thanks, Jake.

One more thing...I've attached the transcripts that I referenced in the report. Can you please run them by the interviewees for accuracy?

Thanks,

Stephen
