

Andrew Swick
Aviation Accident Investigator
AS-WPR

Date: September 29, 2024

Subject: WPR24FA313 Witness Statement

Contact: [REDACTED]-Pilot of Airplane behind Accident Airplane

This witness submitted his observations to the NTSB Operations Center:

[REDACTED] stated that he was flying behind the airplane involved and witnessed and reported to Provo tower. Caller states after he was cleared for low approach, the tower asked to confirm he had visual on traffic ahead. After he confirmed he had visual he saw the A/C involved (N831AZ) bank sharply, stall and fall into a rapid descent with 3 rotations, parachute deployed at low altitude before A/C impacted lake. Caller flew over lake twice and did not see any swimmers in water. Caller wanted to make his information available to be of any assistance to investigation he can. Caller does not have pictures or videos of event.
