10/2/2023	12:11 PM	Pamela Svrclin- Airport Ops Supervisor

Damage:	Aircraft ☒ Property ☐ Facility ☐ Vehicle ☐
Describe Location:	Near Taxiway A at Taxiway D in the grass before 28R
Describe Damage:	Significant damage, prop strike, gear collapse, and bent wing

Incident Narrative:
On 10/2/2023 at 1859Z, N121CB had a accident while taxiing. According to the pilot (Andy Clark) and his wife (Julie Clark) they were heading to Monterey (MRY). Andy lost conscious after his preflight in front of his hangar. He remembered getting in the aircraft and turning on the avionics. Julie attempted to wake him up. The next thing he remembered he was at the scene of the accident and turning off the fuel and avionics. The aircraft was parked in front of Hanger 3, Hangar #3E facing Taxiway A. The aircraft rolled forward onto Taxiway A, into the grass between A and Runway 28R. In the grass it hit a drainage swale and came to a stop just before crossing Runway 28R. See video

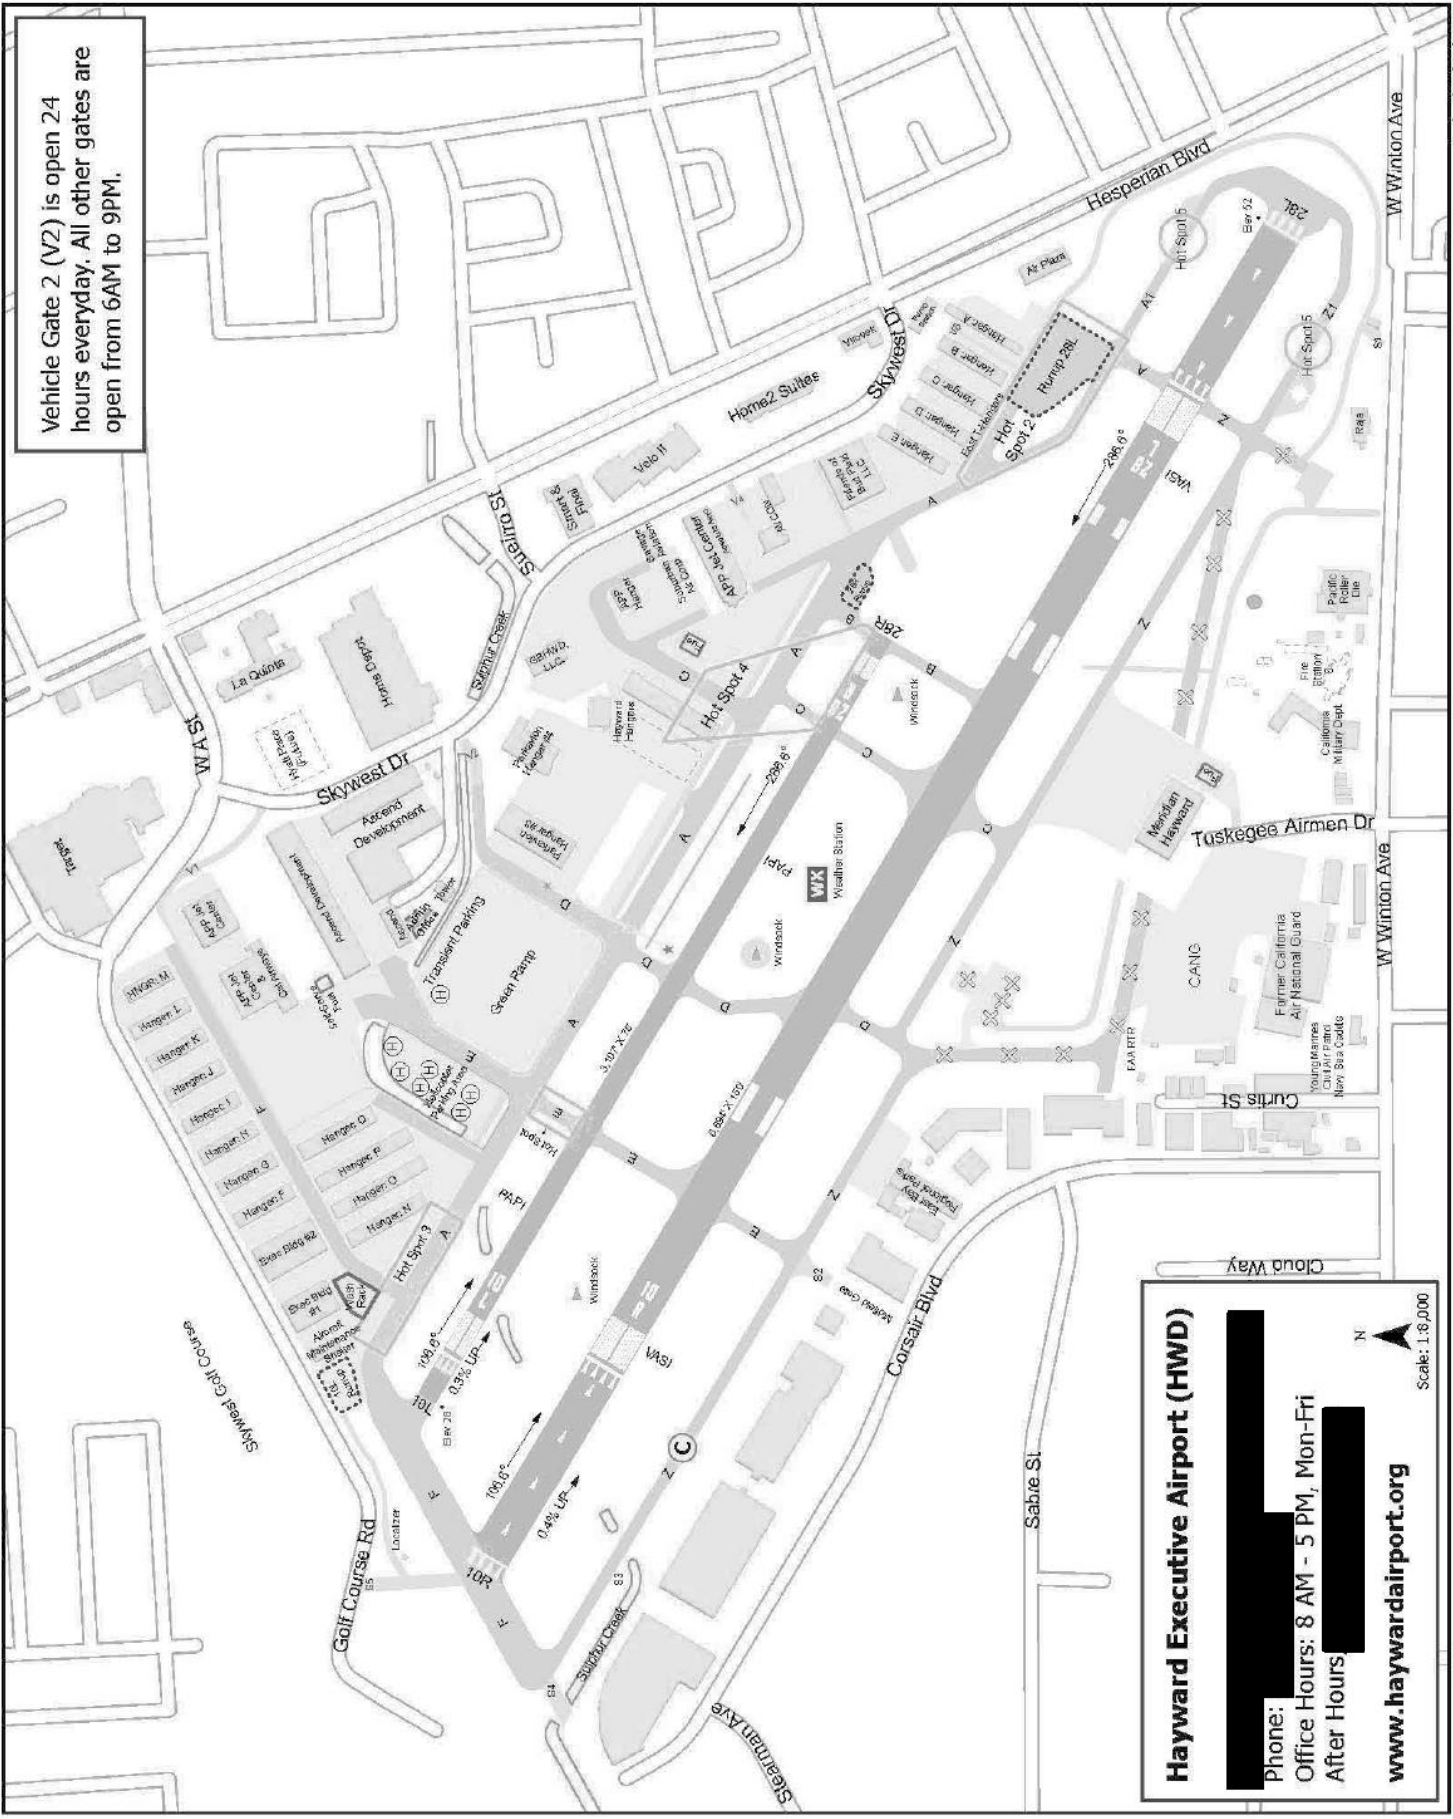

Name of Pilot:	Date of Birth:	Phone
Andy Clark - [REDACTED]	[REDACTED]	[REDACTED]
Address	City	State
