Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

- ① L wing tip slight damage
- ② Bent both tips of propeller
- ③ L landing gear @ pt. of attachment - damaged frame
- ④ no other damage detected - to be inspected by cert. mechanic

NARRATIVE HISTORY OF FLIGHT (Please type on print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was approx one (1) mile from landing @ Baker City airport when I ran out of fuel. I was able to quickly identify a grass farmers field and made an emergency landing. Just before I touched down I was hit by a strong gust of wind. A crosswind lifted the wing. Due to lack (no power) was unable to straighten. L landing gear touched ground first - with lack of control due to the wind - the plane was looped into a circle & caused L wing to hit ground then tipped the nose & prop to strike ground. At that point we came to a complete stop. Both pilot & passenger were able immediately exit through the door - both without any injuries.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Should have had more fuel on board.
