Subject: WPR25LA003 - Air Traffic Control Recordings

Review of recorded communication between the Los Angeles Air Route Traffic Control Center (ARTCC ZLA) and the passenger of N6077X was provided by the Federal Aviation Administration. The passenger had transmitted "I need some help; the pilot has passed out." The audio recordings contained an abundance of radio transmissions where the ARTCC ZLA controller provided assistance to the passenger. Ultimately the passenger was able to land uneventfully at Meadows Field Airport (BFL), Bakersfield, California.
