NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Took off from U36 around 3:10 on 25th October to practice off airport landings in the dry lake bed. 8 miles NE of U36. I landed and took off 3 times on the dry sand of the lake bed. I then saw a small gravel bar and touched down w/o landing to check the surface. The surface seemed stable so I came back around and landed. Upon touching down at slow speed the nose continued to come down. The prop struck the ground and the airplane

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

Flipped over.

I WALKED THE SITE AFTERWARDS. There were no soft spots, or skid marks from braking action. I think I failed to hold enough stick back pressure to keep the tail down.
