Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

One blade of 3 bent. One wing tip separated after fuel tank. All 3 landing gear bent over. Wrinkle to fuselage near luggage compartment .

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

We left KOTH on Sunday morning Nov. 24th at 7:52 am expecting to reach Aberdeen ND KABR by early evening which required two fuel stops along the way. Our first stop was Caldwell Executive KEUL where we filled up at the self-serve. The weather ahead was VFR with clouds at various layers with potential icing so I chose not to file IFR. We landed as intended at KGCC for fuel. I had been to this airport in the past but from the taxiway I was not able to identify the FBO so chose to refuel at the self-serve again. Seeing the weather ahead to KABR was overcast with rain, we chose to fly and spend the night at KRAP, an overnight we were familiar with from past trips. After getting my clearance we took off from 34, retracted the gear around midfield and smelled gas. The engine immediately started to flutter so I looked for the best place to land and initiated a right turn back to the airport. I could see the adjoining runway, taxiway and road. Any one of these would have been a reasonable target to land. Unfortunately, I did not have the altitude to reach them and went down in a field which initially looked OK. The fence proved me wrong. After coming to a stop initiated by the fence, we immediately left the airplane. When it became obvious there was no fire, I went back into the cockpit and turned off the electrical switches.

Our Apple watches automatically called 911. I acknowledged the call and an emergency vehical was at the scene within 10 minutes.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☒ Yes ☐ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Fuel was spilling from engine compartment.
