Contact: Robert DeLaurentis, Pilot/Owner

Mr. DeLaurentis contacted me (acting Duty Officer) by phone the morning following the accident, which occurred on December 2, 2024. He stated to me that he had contacted his attorney prior to the call and prepared a response to my questions which I had asked shortly after the accident occurred. Here is his statement: "On final, added power, engines were unresponsive and had a rough landing." I asked Mr. DeLaurentis if there were any anomalies with the airport landing system during the approach. He said "No." He further reported to me that he had the maintenance logbooks and would scan copies for the purpose of the investigation.
