NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

We departed Richfield UT about 9:45 AM MTN time in clear, calm, beautiful winter conditions. We flew east & climbed up through Monroe Canyon through mountainous terrain. I then turned south to overfly Manning M. L. Res. as I have done many times. Approaching the lake I decided to lake level flying north to south, & inadvertently let the main gear touch the loose dry snow. I was not trying to land because I knew there was too much snow. I was level, holding 80+ MPH & the instant we touched the snow we were upside down, it was so quick there was no chance to add power or elevator.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

I needed to maintain more altitude over snow of unknown depth & texture.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
