

Tealeye Cornejo
Air Safety Investigator (Field)
AS-WPR

Date: April 3, 2025

Subject: WPR25LA113, Bird Identification

Contact: Gregory Lavender, Airport Superintendent of Operations II, Los Angeles World Airports

According to Mr. Lavendar, samples of bird remains were gathered following a bird strike and sent to a United States Department of Agriculture Wildlife Biologist for identification. Through DNA results, the bird was identified as a Herring gull (*Larus argentatus*).
