NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Approached Runway 26, did not touchdown but post touchdown difficulty holding center line, decided to add power & take off but noticed there was difficulty increasing altitude. Noticed drift to runway & turned back toward runway. Plane went into a power on stall & crashed nose first.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

I believe the problem was high density altitude, a problem not previously encountered. Given that fact the decision to add power & go airborne was an error. The proper move was to regain control of center line & come to a full stop if necessary.
