☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

The Cessna 172's wings were ripped off on impact by two trees, landing gear sheered off, and cowling crunched. Damage is unrepairable. Windscreen plexi exploded off but the cockpit remained somewhat intact and was able to exit the aircraft easily out of the passenger door.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I departed Bellingham International Airport (KBLI) to meet my father at the Darrington (1S2) at 09:00 PST. VFR Weather, sunny day. While on route near Concrete, WA I wanted to inspect and possibly land at one of the long gravel bars on the Skagit River 7nm E of Concrete, WA. While inspecting power lines in the approach area of the intended gravel bar I sank a bit and regained altitude as I saw a power line go over me and immediately hit my rear vertical stabilizer. I had polarized sunglasses on which may have been a factor in not seeing the power cable.

The plane spun around almost 180 stalling the left wing and I went full throttle and pitched down to regain airspeed but was unable to regain control of the aircraft and went into the hillside next to the river bank. The plane went through two trees ripping off the wings slowing the aircraft down significantly. I hit the bank and knew I had no major injuries. Upon exiting the aircraft I called 911 and reported the accident. I walked up to the backyard adjacent to the river to get help and was taken to Sedro Hospital for X-rays and stitches in my forehead.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

Polarized glasses may have been a factor in not seeing the line.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
