Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Aircraft impacted house at end of runway. Smashed a hole in the roof of single story house. Front and bottom of aircraft have major impact damage.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I planned a flight for my wife Aimee & I to fly north over the Enchantments and check out the lakes and area for a planned hike. I did a preflight, fueled, updated wx info in airport office and parked the plane on the ramp. When Aimee arrived we talked a bit, then departed 06 out of Toledo. We flew NE until over the Enchantment area, circled a few lakes and then descended down toward Cashmere. I was on comms about my positions, flew low approach/recon for 25 and both of us noted wind sock hanging dead. I decided to fly out and land 7; climbed and set up for 7. Approach was stable 75 or so, 70 over threshold, when we touched down I braked. I felt we weren't slowing fast enough so I choose to Go-Around. While climbing out we struck the house that is at the end of the runway.

I shut down Master, key power, fuel etc. Bent the fuel lines as best I could to prevent more fuel from coming down from the tanks. The fire personnel were there quickly. I pulled Aimee onto my (L) seat, helped them put her on a backboard and out the back window. I followed by climbing on a backboard as well.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

Fly by and land at alternate airport (KEAT)
