NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

at this remote airfield recommended landing is rwy 19 and departure rwy 1 due to slope of rwy.

Pilot ~~dep~~ attempted departure with a tailwind. Nearing the end of rwy with the airplane still in contact with the ground, the decision was made to abort take off.

At the moment braking was applied the aircraft lifted off the ground resulting in over braking when ground contact resumed. This resulted in the airplane turning upside down and coming to an abrupt halt.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

be cautious of over braking when aborting takeoff
