DAMAGE TO AIRCRAFT AND OTHER PROPERTY					
Aircraft Damage ☐ None ☐ Minor	☒ Substantial ☐ Destroyed ☐ Unknown	Aircraft Fire ☒ None ☐ In-Flight ☐ On-Ground	☐ Both Ground and In-Flight ☐ Fire at Unknown Time ☐ Unknown	Aircraft Explosion ☒ None ☐ In-Flight ☐ On-Ground	☐ Both Ground and In-Flight ☐ Fire at Unknown Time ☐ Unknown
Description of Damage to Aircraft and Other Property <i>(Use additional sheet, if necessary.)</i> Front wheel bent, one propeller blade gone, damage to airframe from wheel bending					
NARRATIVE HISTORY OF FLIGHT <i>(Please type or print in ink.)</i>					
Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible. I was coming in for a touch and go and bounced on the landing. Tried putting the plane down after the bounce, which resulted in a slightly bigger bounce, and on the third bounce it came down harder and the wheel bent which resulted in the propeller striking the ground. Called the tower saying I wanted to make it a full stop, at this point did not realize one of the propeller blades was gone, until i tried putting in some throttle to get off the runway and seeing it not doing anything. Called up the tower to notify them about this and that I would not make it off the runway. They had someone come out take some pictures and then we pushed it off.					
OPERATOR/OWNER SAFETY RECOMMENDATION <i>(How could this accident/incident have been prevented?)</i>					
Reflecting on it, trying to put it down once it's bouncing is not the right course of action, and I should have done a go around. Went up with an instructor later on in the day, just to talk through it and go over some more landings. Had practiced go arounds before if the approach was not good, but not if any bounce after putting it down so was a new situation where my instinct was to try control it to the ground instead of initiating a go around
