☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Total loss to airplane, no damage to any property.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On March 9, 2026, a friend and I decided to go for an late afternoon flight to enjoy the day. At KSGU, we departed at 5pm, the winds were 10knots from 260. After departing KSGU, I flew Southeast. Everything seemed normal and the airplane was performing great. There were some afternoon bumps, which is to be expected this time of day in our area. During a turn, I experienced a sudden loss of control. It felt like a strong downdraft that was pushing the aircraft straight down to the ground. I immediately leveled wings and gave full power, but the airplane controls did not respond. The power of the downdraft was stronger than the airplane performance, and I did all I could to keep wings level as we fell quickly to the ground. We impacted the ground and bounced a few times. I called 911.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

The factor that could have led to a better outcome would have been higher altitude in flight.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
