Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On Friday, April 17, 2026 my student, [REDACTED] and I completed 2 hours of ground training, a normal preflight routine in which we both viewed the two bubble fuel sight gauges, and began pattern work to practice short and soft field takeoffs and landings.

After multiple takeoffs and landings, at approximately 5PM, the engine quit just after takeoff at approximately 250ft AGL at the end of Runway 26. I took control of the aircraft, pitched for best glide speed, attempted engine restart, and called tower declaring an emergency due to engine out. I stated my intention to turn to runway 31, and began a right turn. During the turn, I saw that we did not have enough altitude to make Runway 31 due to multiple buildings on our path. Maintaining best glide speed and doing my best to secure the engine, I then turned left in attempt to line up for a landing on an empty street perpendicular to the airport. I told Salinas Tower of my intention. Due to telephone poles and wires, I was unable to cleanly square my turn to the road and hit the ground at minimum safe speed as close to the road as possible. Both myself and the student were able to exit the aircraft on our own, unharmed.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☐ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Total Time/ Cycles On Part

_____ Hours

_____ Cycles

Time Since This Part Inspected/Overhauled
