Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

About 40 minutes prior to departure from MYL, called Big Creek to check wx. Checked ATIS wx prior to departing south from MYL about 1100. Spent about 10 minutes climbing on the East side of MYL to achieve at least 9000' MSL before heading over mountains NE to U60. Descend to upwind, then lt turn to downwind to Land RWY 19 as recommended in U60 route planning. Came in too high on final and did go around about 400' AGL to another left downwind. Longer downwind leg up the canyon to the North to achieve a longer stabilized final approach. Touched down full flaps too fast (possible tailwind.) At south end of RWY, pulled up, idle power, to avoid vehicles parked and hit large ATV with nose gear and under carriage of aircraft. Left wing hit sign post, aircraft spun around to face North about 200' beyond R

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

Plan to land earlier in the day for cooler temperatures and better wind conditions. Should have considered return to MYL after first go around.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
 (If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
