Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

To be determined, but appears that the Vertical Stabilizer, Cowl, Prop, Roof, and left Wing Strut are damaged.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Went for a sunset flight with one passenger. Completed a W&B and complete preflight before the flight. Flight went well. Normal takeoff from 21 R shortly after 2030 PST for a local flight, operation of aircraft appeared normal. We were in the air for about 15-20 minutes or so and then headed back to KPSC for landing Shortly before 2100. ATIS reported wind 140 @ 7, pilot observed variable winds. Tower instructed left base for 21R. Cleared to land 21R. I requested a long landing as I was headed to the West Executive Hangers on the south west end of the airport. Cleared for long landing 21R. Approach was normal. Overflew the runway approximately 15 feet AGL at about 60-65 MPH. Reduced power for a 3 point landing. Touched down on the runway. Go around was not considered, did not seem to be an abnormal approach or touchdown. After touchdown and on the rollout the airplane started to nose over. The prop struck and the airplane overturned on the runway. Pilot and passenger were both alert and aware. Both persons safely evacuated the aircraft through the pilot side door and waited for emergency response.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

Unknown at this time.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Unknown, this is an active investigation, to be determined.
